PRODUCT DESCRIPTION

Seks Posta builds on the elegant foundation of our flagship Fyra collection, reimagining the wall sconce with a bolder presence. Swedish for “six post,” this 60mm wide fixture body rests confidently on two finely crafted timber posts, each seamlessly joined to a solid base using time-honored joinery techniques. The increased width offers a more substantial profile, while the thoughtful composition allows the light to gently illuminate the mounting surface—casting a rich, ambient glow that enhances the warmth and intimacy of any space.
